

Keep CODEX Guidelines Out of the United States

On any given day, one of our 535 Representatives and Senators can introduce a bill that interferes with basic health freedoms. The sad fact is that we as citizens are at the mercy of the lawmakers we elect. The good news is that these lawmakers do pay attention if enough Americans contact them about a particular issue.

Please write to your Representative and two Senators to express your concerns about CODEX or any proposed legislation that would grant the FDA greater authority to regulate dietary supplements. A new program on our website makes it very easy to locate and email your Representative and two Senators.

Just click here to email your members of Congress: (www.lef.org/lac)
