

MistOral III™ with CoQ10

2 fl oz bottle

Item Catalog Number: 00803

MistOral III™ with CoQ10 is a mouth, tooth, and gum restorative aid with a whitener and breath freshener.

MistOral III helps keep breath fresh all day long and adds whitening power to your dental routine. MistOral III uses 35% food-grade hydrogen peroxide that is both safe and effective.

Lipoic acid, another potent antioxidant, helps to rid the body and mouth of toxins and acts as a chelator of toxic metals that are often used in dental fillings.

Camu camu, another important ingredient, acts as an antioxidant, and helps ease inflammation that can strengthen blood vessels and is absorbed easily in the mouth.

MistOral III also contains vitamin K, which can help with tooth preservation, and is a gum support facilitator. The herbal combination of echinacea, chaparral, pau d'arco along with myrrh oil helps to support healthy gums and teeth. Folic acid and peelu make it an even more potent dental hygiene formula.

The combination of these and other natural ingredients make MistOral III a complete dental protection spray. Its small size allows for easy carrying when away from home.
