Dermatologist's Corner

Renowned dermatologist Gary Goldfaden, M.D., has developed novel solutions for the most common skin problems encountered by maturing adults. Based on extensive clinical testing, these formulas are designed with potent antioxidant tea extracts (red, green, and white) to correct specific areas of concern, such as the appearance of darkness and puffiness under the eyes, fine lines, rough skin, loose skin, and more.⁶¹⁻⁷⁰ These products can be used in conjunction with any other skin treatments or products. They are specially formulated exclusively for Life Extension®.

Ultra Wrinkle Relaxer uses a safe, nontoxic hexapeptide (acetylhexapeptide-3) in combination with a blend of concentrated antioxidant tea extracts to lessen the appearance of wrinkles. Ultra Wrinkle Relaxer promotes the appearance of smooth skin, especially in the forehead and around the eyes.
