

Hyaluronic Facial Moisturizer

1 oz

Item Catalog Number: 80109

Dermatologist's Corner

Renowned dermatologist Gary Goldfaden, M.D., has developed novel solutions for the most common skin problems encountered by maturing adults. Based on extensive clinical testing, these formulas are designed with potent antioxidant tea extracts (red, green, and white) to correct specific areas of concern, such as the appearance of darkness and puffiness under the eyes, fine lines, rough skin, loose skin, and more.⁶¹⁻⁷⁰ These products can be used in conjunction with any other skin treatments or products. They are specially formulated exclusively for Life Extension®.

This nutrient-enhanced facial moisturizer hydrates and protects skin, producing younger, healthier, softer-looking skin. It is excellent for all skin types, but particularly beneficial for mature, delicate or dry skin. Use daily, especially after exfoliation.

References
