### *Dermatologist's Corner*

Renowned dermatologist Gary Goldfaden, M.D., has developed novel solutions for the most common skin problems encountered by maturing adults. Based on extensive clinical testing, these formulas are designed with potent antioxidant tea extracts (red, green, and white) to correct specific areas of concern, such as the appearance of darkness and puffiness under the eyes, fine lines, rough skin, loose skin, and more.<sup>61-70</sup> These products can be used in conjunction with any other skin treatments or products. They are specially formulated exclusively for Life Extension®.

Increase volume and lip contour and give better definition to your lip lines. Ultra Lip Plumper uses natural plant-derived irritants to increase lip volume. Natural moisturizers, such as squalene and jojoba oil, smooth lips and lessen the appearance of creases. Natural antioxidants, like red tea, help allay premature aging. Excellent for all skin types.
