

Brite Eyes III

2 vials (5 ml each)

Item Catalog Number: 00893

As we get older, our eyes become vulnerable to a variety of insults that can cause irritation, dry eye, and structural problems. Applying lubricating eye drops several times a day can alleviate discomfort. The Brite Eyes III formula contains two proven lubricants (hydroxypropylmethylcellulose and glycerin) that are FDA-approved for ophthalmic use without irritation. The Brite Eyes III formula also contains the antioxidant N-acetyl-carnosine, which helps protect the active ingredients against glycation.¹⁷⁻²²

Each box of Brite Eyes III contains two individual vials that provide five milliliters each. This type of packaging in two individual vials reduces the risk of bacterial contamination. And having two vials also makes it convenient for consumers to keep Brite Eyes III readily accessible at home, the office, one's purse, pocket, or other places where access to a soothing eye drop is needed.

References

Active ingredients

Glycerin (lubricant)	1.0%
Hydroxypropylmethylcellulose (lubricant)	0.03%

Inactive ingredients: boric acid, citric acid, N-acetyl-carnosine, potassium bicarbonate, purified benzyl alcohol, and sterile water.

Dosage and Use

- For use as a lubricant to prevent further irritation or to relieve dryness of the eye.
- Instill one or two drops in the affected eye(s) as needed.

Warnings

- If you experience eye pain, changes in vision, continued redness or irritation of the eye, or if the condition worsens or persists for more than 72 hours, discontinue use and consult a doctor.
- To avoid contamination, do not touch tip of container to any surface.
- Replace cap after using.
- Do not use if seal is broken.
- If solution changes color or becomes cloudy, do not use.
