

Super Curcumin with Bioperine®

800 mg, 60 capsules

Item Catalog Number: 00912

 **Featured Video**

Curcumin is impressing scientists around the world with its remarkable multiple health benefits. Curcumin is a polyphenol present in the spice turmeric and was first used by Indians over 3000 years ago in traditional Ayurvedic medicine. Modern science has found that curcumin has remarkable antioxidative, immuno-modulatory, proapoptotic, and antiangiogenic properties.⁵⁴⁻⁵⁷ Curcumin is also found to increase detoxifying enzymes and promote healthy DNA function.⁵⁸

New studies have tied inflammation to overexpression of a protein molecule called nuclear factor-kappa B (NF-kappaB). NF-kappaB acts like a switch to turn on genes that produce the body's inflammatory responses. Because NF-kappaB's expression increases in aging adults, scientists have sought ways to modulate NF-kappaB and its effects in the body.

Curcumin has been shown to exert powerful inhibitory effects on NF-kappaB activation within the body.⁵⁹ Curcumin inhibits overexpression of NF-kappaB. In addition, curcumin inhibits the metabolism of arachidonic acid, as well as activities of cyclooxygenase, lipoxygenase, and cytokines (interleukins and tumor necrosis factor).⁶⁰

Other clinical trials suggest roles for curcumin in helping maintain healthy lipid profile, bowel, and joint functions.^{61,62} Curcumin can also help maintain normal healthy platelet function,⁶³⁻⁶⁶ and have immunomodulatory effects by inhibiting histamine release from mast cells.⁶⁷

Curcumin may effectively rescue pancreatic islets from damage, the cause of deficient insulin production, without affecting the normal function of these cellular structures.⁶⁸

Curcumin's multifaceted effects include protecting against estrogen-mimicking chemicals, protecting against damaging free radicals, and promoting normal cell cycle growth.

The turmeric extract in Super Curcumin with Bioperine® has been standardized to 95% curcuminoids and enhanced with the thermo-nutrient Bioperine® in order to ensure optimal quality, potency, and bioavailability.

Supplement Facts

Serving Size 1 capsule

Servings Per Container 60

Amount Per Serving

Turmeric (<i>Curcuma longa</i>) root extract containing 95% (760 mg) curcuminoids (curcumin, demethoxycurcumin and bis-demethoxycurcumin]	800 mg
---	--------

Bioperine® piperine (from black pepper)	5 mg
---	------

Other ingredients: vegetable stearate, gelatin, purified water.

This product contains NO milk, egg, fish, peanuts, crustacean shellfish, soybeans, tree nuts, wheat, yeast, gluten, corn, or rice. Contains NO sugar, and no artificial sweeteners, flavors, colors, or preservatives.

Bioperine® is a trademark of Sabinsa Corporation.

Dosage and Use

- Take one capsule once or twice daily with or without food, or as recommended by a healthcare practitioner.

Caution

Do not take more than 15 mg of Bioperine® per day. Do not use Bioperine® without physician supervision since it may increase blood levels of prescription medications. Do not take if you have gallbladder problems or gallstones. If you are taking anti-coagulant or anti-platelet medications, or have a bleeding disorder, consult your healthcare provider before taking this product.

Warnings

- Keep out of reach of children.
- Do not exceed recommended dose.
- Do not purchase if outer seal is broken or damaged.
- If you have a bad reaction to product discontinue use immediately.
- When using nutritional supplements, please consult with your physician if you are undergoing treatment for a medical condition or if you are pregnant or lactating.
