

## Anti-Oxidant Rejuvenating Hand Cream

**2 oz**

Item Catalog Number: 80117

### *Dermatologist's Corner*

Renowned dermatologist Gary Goldfaden, M.D., has developed novel solutions for the most common skin problems encountered by maturing adults. Based on extensive clinical testing, these formulas are designed with potent antioxidant tea extracts (red, green, and white) to correct specific areas of concern, such as the appearance of darkness and puffiness under the eyes, fine lines, rough skin, loose skin, and more.<sup>61-70</sup> These products can be used in conjunction with any other skin treatments or products. They are specially formulated exclusively for Life Extension®.

Anti-Oxidant Rejuvenating Hand Cream helps improve the appearance of unwanted pigmentation, disco-oloration and age spots — and mini-mizes the appearance of dry, dehydrated, veiny skin on the back of the hands. It is formulated with antioxidants to help fight free radicals and with compounds that help tighten loose skin.

### References

### Ingredients
