Dermatologist's Corner

Renowned dermatologist Gary Goldfaden, M.D., has developed novel solutions for the most common skin problems encountered by maturing adults. Based on extensive clinical testing, these formulas are designed with potent antioxidant tea extracts (red, green, and white) to correct specific areas of concern, such as the appearance of darkness and puffiness under the eyes, fine lines, rough skin, loose skin, and more.⁶¹⁻⁷⁰ These products can be used in conjunction with any other skin treatments or products. They are specially formulated exclusively for Life Extension®.

Formulated with potent antioxidants, vitamins, tea extracts and powerful anti-aging ingredients, Anti-Oxidant Rejuvenating Foot Cream hydrates, soothes and softens skin. It also can help reduce the appearance of noticeable signs of aging.
