

## Bone Strength Formula with KoAct™

### 120 capsules

Item Catalog Number: 01211

The use of diets high in collagen to improve bone health dates back to ancient cultures. Now Life Extension® brings you an exciting formulation with KoAct™, a patent pending chelated form of calcium and collagen designed to maintain optimal bone health. KoAct helps maintain bone strength and mineral density. This remarkable ingredient allows for greater strength and flexibility, so your bones can absorb energy, reducing the risk of age-related injuries. Additional plant extracts from bamboo and dried plum have also been added for their bone-protective minerals and polyphenols.

If you need extra bone support, ask your health care professional how Bone Strength Formula with KoAct™ can be part of a comprehensive nutritional program in conjunction with proper resistance exercise. Life Extension offers many mineral formulas that may complement Bone Strength Formula with KoAct™ to ensure optimal mineral intake. If you have any questions about this, please call a Life Extension® Health Advisor who can help to tailor a supplement program that meets your individual bone-care needs.

### Supplement Facts
