

Advanced Lipid Control
60 vegetarian capsules
 Item Catalog Number: 01308

 **Featured Video**

Safely managing blood lipid levels can be a challenge for people as they get older. Yet an increasing number of doctors recognize the critical need to protect the arterial wall against low-density lipoprotein (LDL) oxidation and inflammatory insults.

For those who want to maintain healthful levels of lipids in the blood, Advanced Lipid Control contains two powerful nutrients that help protect key aspects of cardiovascular function. This special formula supports healthy cholesterol levels for those already within normal range and safeguards vascular and heart health, while providing excellent antioxidant protection.

THEAFLAVIN EXTRACTS FROM BLACK TEA

A staple beverage in many cultures for millennia, black tea contains beneficial flavonoids found naturally in its leaves called theaflavins. Advanced Lipid Control contains theaflavins, which scientists have discovered hold multiple applications for arterial health. As well as supporting cholesterol levels that are already within the normal range,⁵⁶ theaflavins have been shown in human studies to protect against LDL oxidation and favorably affect endothelial function,⁵⁷ thus helping to maintain a healthy circulation.

Scientists have also found that black tea flavonoids possess strong antioxidant properties, which can help mitigate oxidative damage to cells and tissues from free radicals.⁵⁸ In addition, theaflavins have been found to be helpful in regulating key inflammatory mediators in the body, thus helping to preserve endothelial integrity.^{59, 60}

CORONARY-PROTECTIVE EFFECTS OF ANCIENT INDIAN BERRY

The second ingredient in Advanced Lipid Control is called AmlaMax®, a patent-pending extract of Indian gooseberry. It contains a diverse blend of phenolic compounds that have been clinically shown to safely help maintain healthy levels of all three key blood lipids⁶¹—LDL, high-density lipoprotein (HDL), and triglycerides—as well as markers

of inflammation such as C-reactive protein. Studies have also shown that this plant extract helps to induce rapid and significant improvement in endothelial function.⁴⁹⁻⁵²

Supplement Facts

Serving Size 2 capsules

Servings Per Container 30

Amount Per Serving

| | |
|--|--------|
| AmlaMax® (<i>Emblica officinalis</i>) 25:1 Water Extract (fresh fruit) [standardized to 35% hydrolysable gallic ellagic tannins (175 mg) by HPTLC] | 500 mg |
|--|--------|

| | |
|---|--------|
| Black Tea (<i>Camellia sinensis</i>) Extract (leaf) [standardized to 25% theaflavins (87.5 mg)] | 350 mg |
|---|--------|

Other ingredients: vegetable cellulose (capsule), stearic acid, silica, magnesium stearate.

This product contains NO milk, egg, fish, peanuts, crustacean shellfish (lobster, crab, shrimp), soybeans, tree nuts, wheat, yeast, gluten, corn, or rice. Contains NO sugar, and no artificial sweeteners, flavors, colors, or preservatives.

AmlaMax® is a registered trademark of DoICas Biotech, LLC.

This product contains a black tea extract which is licensed from Applied Food Sciences, Inc. and is protected by U.S. patent Nos. 6,811,799 and 6,602,527.

Dosage and Use

- Take two capsules in the evening with or without food, or as recommended by a healthcare practitioner.
- Take earlier in the day if you are sensitive to caffeine.
- This supplement has less than 16 mg of caffeine per serving (the amount found in 1/3 cup of brewed green tea).

Warnings

- Keep out of reach of children.
- Do not exceed recommended dose.
- Do not purchase if outer seal is broken or damaged.
- If you have a bad reaction to product discontinue use immediately.
- When using nutritional supplements, please consult with your physician if you are undergoing treatment for a medical condition or if you are pregnant or lactating.
