

Triple Action Under Eye Rejuvenator

0.5 fl oz (14.79 ml)

Item Catalog Number: 01046

While most reasonably priced cosmeceutical products typically have only a few key active ingredients, Triple Action Under Eye Rejuvenator contains 19 bioactive compounds, including advanced peptides and matrikines only found in prestige brands. Triple Action Under Eye Rejuvenator targets the three main concerns around the eyes:

1. puffiness
2. dark circles
3. crow's feet

Triple Action Under Eye Rejuvenator starts with this triple threat for triple action:

1. Eyeliss™, a patented peptide-based blend that fights the appearance of bags by helping improve the firmness and elasticity of under-eye skin
2. Sesafash™, a new generation tightening and hydrating agent derived from sesame
3. Haloxyl™, a proprietary matrikinin-based blend shown to help reduce under-eye darkness

In addition, this new formulation also includes:

- Sodium hyaluronate, for hydration
- Cucumber, for its astringent properties
- Sunflower seed oil, to provide the benefits of vitamin E
- Squalene from olives as a non-chemical moisturizer
- Tocopherol, to prevent skin moisture from evaporating and to function as an antioxidant
- Borage oil, to nurture and rejuvenate skin
