

EcoGen® Soy Isoflavone Concentrate

300 grams

Item Catalog Number: 296

EcoGen® soybean isoflavone concentrate is designed to support cardiovascular function, additionally targeting immune health, breast health and prostate health. EcoGen® soybean isoflavone concentrate is a potent source of isoflavones due to the use of the soybean germ in which isoflavones are naturally concentrated. The Non-GMO soybeans are milled resulting in a soybean germ of optimal potency.* Isoflavones are a special type of phytochemicals recognized for their biological properties, of which Genistein, Daidzein, and Glycitein are best-known.

Dosage and Use

- As a dietary supplement, take 5 teaspoons (10 grams) daily, or as directed by your health care professional.
- Mix powder in soy milk, juice, or other liquids.
- This product is heat-stable and can be used in cooked foods.

Caution

Persons with estrogen dependent cancers should consult a healthcare professional before beginning a soy regimen. The genistein in soy can interfere with the ability of radiation to kill cancer cells, though there are contradictory studies on this issue. When undergoing treatment for cancer consult your healthcare practitioner before using soy products.
