What the Experts are saying about Cancer Therapy

"Combining scholarship and readability, Moss comprehensively surveys innovative cancer therapies. **This book is a must** for cancer patients and their families who want to be involved in their own treatment."

Samuel S. Epstein, M.D., Professor of Occupational and Environmental Medicine, The University of Illinois at Chicago.

"This book is remarkable in revealing the existence of so many high-quality peer-reviewed studies on natural and innovative approaches to cancer....Cancer Therapy points the way to promising directions for resolving the disease. This book is a **milestone for the enlightenment of the public** and of the scientific and medical communities..."

Robert G. Houston, author, Repression and Reform in the Evaluation of Alternative Cancer Therapies.

"After looking at the first few pages of Cancer Therapy: The Independent Consumer's Guide, I found myself reading every word. This book contains very practical information for the person interested in taking positive steps to recover from, or prevent, cancer. **I intend to recommend it to every patient!**"
