

## Heart Disease: Unified Theory of Cause and Cure

by Linus Pauling

VHS Video (62 minutes)

Listen to the inventor with the first patent for reversing heart disease without surgery discuss this breakthrough in every day language. At age 92, Nobel winner Pauling tells why ordinary LDL cholesterol does not cause heart disease, why today's heart operations may be harmful "long term", and why the US RDA of vitamin C should be raised. Dr. Pauling provides important information on a new treatment that he recommends based upon the latest laboratory animal studies. Pauling discusses the first three cases where this treatment was self-administered with "miraculous" results. This video contains specific dosage recommendations by Dr. Pauling-vital information currently not available from any other source.
