

Mega Lycopene

15 mg, 90 softgels

Item Catalog Number: 00455

Lycopene may be an important substance in maintaining prostate health.²²²⁻²²⁷ A recent clinical trial demonstrated that lycopene at a dose of 15 mg per day can significantly improve markers of prostate proliferation.²²⁸ In addition, the strong lipid antioxidant properties of lycopene make it particularly effective in maintaining healthy LDL oxidation and protecting against free radical activity on the arterial wall.^{208,220,221,229,230} Improved tomato extraction methods have given consumers access to supplements that contain greater concentrations of lycopene at lower prices.
